Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., EE	National Institute of Technology, Patna	[7.59 CGPA]	[2026]
Senior Secondary	[CBSE]	[76.6]	[2023]
Secondary	[CBSE]	[92.8]	[2021]

Projects

- **Project A: [Personal Portfolio Website]** *Jan. 2026*
  Tools: [HTML, CSS, JavaScript]
  - Designed and developed a responsive personal portfolio website to showcase projects and technical skills.
  - Implemented structured sections including Experience, Education, and Contact with clean UI design.
  - Applied CSS styling and layout techniques to ensure cross-device compatibility.
  - Optimized webpage performance and navigation for improved user experience.

- **Project B: [Line Follower Robot]** *Dec. 2024*
  Tools: [Arduino, IR Sensors, Embedded C, Motor Driver]
  - Built an autonomous robot capable of detecting and following a predefined path using IR sensors.
  - Programmed Arduino microcontroller to process sensor input and control motor speed dynamically.
  - Motor driver module for precise movement and direction control.
  - Calibrated sensors to improve path detection accuracy and reduce deviation.

Project C: [E-Yantra Krishi Drone: Vision-Based Infected Plant Detection System] *Dec. 2024*
Tools: [Arduino, IR Sensors, Embedded C, Motor Driver]

- Implemented perspective transformation to obtain top-view (bird's-eye view) of plant beds from camera input.
- Designed an image processing pipeline to detect infected plants using color space analysis and thresholding techniques.
- Applied contour detection and morphological operations to isolate affected regions.

Skills

- **Programming Languages**: [WEB DEV using MERN stack, Java, Python]
- **Technologies**: [GitHub, Simulation]
- **Tools**: [GitHub, MATLAB, Simulink]

Achievements

- completed "The Joy of computing using python" with 90 percent score
